

Dear Hiring Manager,

This letter is to express my interest in your posting on linkedIn.com for an experienced Senior Java Developer at FlixBus. I'm Azad Asanali, a passionate Software Engineer with seven years of development experience. I'm holding a Bachelor's degree in Computer Science Engineering. Currently working as a Senior Software Engineer at ASG Technologies.

Given a track record of successful projects delivered and proven expertise in agile development process, I'm well qualified for the aforementioned position. I continue to learn new skills and development techniques which are important to me and the success of organization. I've always been counted on to train and assist my colleagues whenever needed. I've the experience to start contributing from day one and I truly excited about the prospect of getting started.

Based on the requirements mentioned for this position, my background and skill sets closely matches and few of them I would like to highlight,

- Skilled in developing and testing Java based applications.
- Production experience in building fine grained microservices system using Spring Boot.
- Proficient in developing Single Page Web Application using modern UI framework, count on me for full-stack requirements.
- Polyglot software developer having involved in developing applications for windows and android ecosystem.
- Limited proficiency in Database design and writing queries, but would like to actively involve and ideate large scale distributed system.

Please review my attached resume for additional details regarding my expertise and career achievements. I can be reached anytime via email at azadxperias2012@gmail.com.

Feel free to go through my [Github](#) and [Stackoverflow](#) profile's for more details.

Thank you for your time and considerations. I look forward to speaking with you about this opportunity.

Sincerely,
Azad Asanali
